Vandal-resistant precast products shall have a minimum compressive strength of 5,000 psi at 28 days. There shall be a maximum of 4-6% air entrainment and 3/8" rebar reinforcement engineered to withstand severe structural stresses. The exposed aggregate texture is washed, cured, and sealed to enhance the stone colors. The smooth surfaces have color dyes throughout mixture for consistent color and protective sealer that prevents dusting.

FOUNTAINS

Kay Park Recreation has a variety of indoor water coolers and outdoor drinking fountains. Our commercial drinking fountains come in both steel and concrete material. Choose from pedestal type or wall mounted drinking fountains, or ADA drinking fountains, as well as chilled indoor water coolers for public buildings, or shower towers and foot washing stations for public beaches. We also offer pet drinking fountains, which are popular for dog parks and walking trails. Heavy Steel Drinking Fountains shown on this page can withstand rough conditions. All models have a heavy steel construction with a powder coat finish.
